Instructions

Top Pumps for the PerfectDraft consists of the most recent 52 kegs released on the PerfectDraft machine.

Played in the usual way you split the deck between the players and choose a player to go first. Simply pick a category that you think is the strongest for that keg and see if you beat your opponents.

It's up to you to decide what is better, i.e. a higher ABV might not be a good thing in your eyes, so decide before the game starts if it is a higher ABV that wins or a lower ABV.

While I have tried my best using the power of the internet some of the EST dates may not be accurate, also some of the dates are when the brewery started and not when the beer was first brewed, but it all adds to the fun.

I've also guessed at some of the Big Bald Review ratings as there are still some kegs I haven't reviewed yet.

Anyway... enjoy!
